

Staff Report

For City Council Meeting - 11/3/2021

Subject - New Business - Public Works Hazard Mitigation Funds Request

Synopsis: Public Works Director, Mark McFadden, is requesting hazard mitigation funds up to \$17,925 to purchase two fuel tanks. His explanatory statement is below:

Gearhart City Council, I am asking to use \$17,924.72 from the City Hazard Mitigation fund to purchase two fuel tanks. One tank will be 650 gallons and located next to our Diesel tank at the water treatment facility. I picked this location because of the rock columns installed underground that protect the tanks and building from earthquakes. After our last major storm, the City crew was unable to get gas needed for vehicles and equipment, and luckily, the City of Seaside bailed us out by letting us use their gas. The other tank is a 200 gallon tank that will be located at the City shops. This tank will be used to fuel small equipment like saws, mowers, etc. I have one quote from Eagle tanks located in Aumsville, Oregon. I was not able to get any additional quotes that met the specs I was looking for. Thank you, Mark McFadden - City of Gearhart Public Works Director

Council Options:

- 1) Approve the request for funds up to \$17,925;
- 2) Make an adjustment to the amount;
- 3) Deny the request.

Recommendation: Staff recommends funding the purchase of the two fuel tanks up to \$17,925 per Mark's statement.

Recommended Motion

Move to allow a \$17,925 allocation in hazard mitigation funds to purchase two fuel tanks.

Legal Analysis: N/A

Financial Analysis: The City currently has \$63,982.45 in the hazard mitigation fund.

Respectfully submitted,

A handwritten signature in black ink, appearing to be the name 'Chad' written in a stylized, cursive script.

Chad
