Call for Volunteers

Help the Necanicum Watershed Council remove invasive English Ivy and Holly from the Gearhart Ridge Path in preparation for a fall pollinator planting project!

August 2nd, 7th, 16th, 21st, 26th, 27th, 2022
from 9:00am-12:00pm. Please RSVP to
necanicumwatershed@gmail.com

English Ivy and English Holly are both aggressive invasive species that threaten natural vegetation and lower the quality of coastal pollinator habitat. The Necanicum Watershed Council, in partnership with the Oregon Wildlife Foundation and City of Gearhart aims to tackle these invasive species along the Gearhart Ridge Path by removing them over the course of the summer of 2022 and replacing them with tough, resilient pollinator species such as lupine and douglas aster in the fall.
